

PUBLIC NOTICE

Regarding Modifications to the Kent Facility RCRA Part B Permit

October 7, 2005

Burlington Environmental Inc., a wholly owned subsidiary of Philip Services Corporation (PSC), has modified the RCRA Part B Operating Permit for its Kent facility, in accordance with Washington State Dangerous Waste Regulations Chapter 173-303-830 WAC. This change is classified as a Class 1 modification requiring agency approval, as described under the three tiered modification system established by federal and state regulations. Of the three classes of modifications, Class 1 modifications are the most minor and do not substantially affect facility operations.

General Facility Operations

PSC's Kent facility, located at 20245 77th Ave. S. Kent, WA 98421, is a commercial dangerous waste management facility. Treatment processes include treatment of household hazardous waste, consolidation of dangerous and household hazardous wastes, wastewater treatment, and stabilization. There is no disposal of dangerous wastes on site.

Summary of the Modifications

KTMOD16-1: This modification proposes to revise Table D1-2, the existing segregation table, in accordance with changes that have been mutually agreed upon by PSC and Ecology. The modification also provides a description of how discrepant containers in "drum jail" will be identified and staged in accordance with Table D1-2.

The Part B Permit, the modifications presented above, and supporting documentation can be reviewed at:
